My students loved the Halloween card from Tawain. They have prepared their Thanksgiving Cards and we will be sending them soon. Check out their photo.

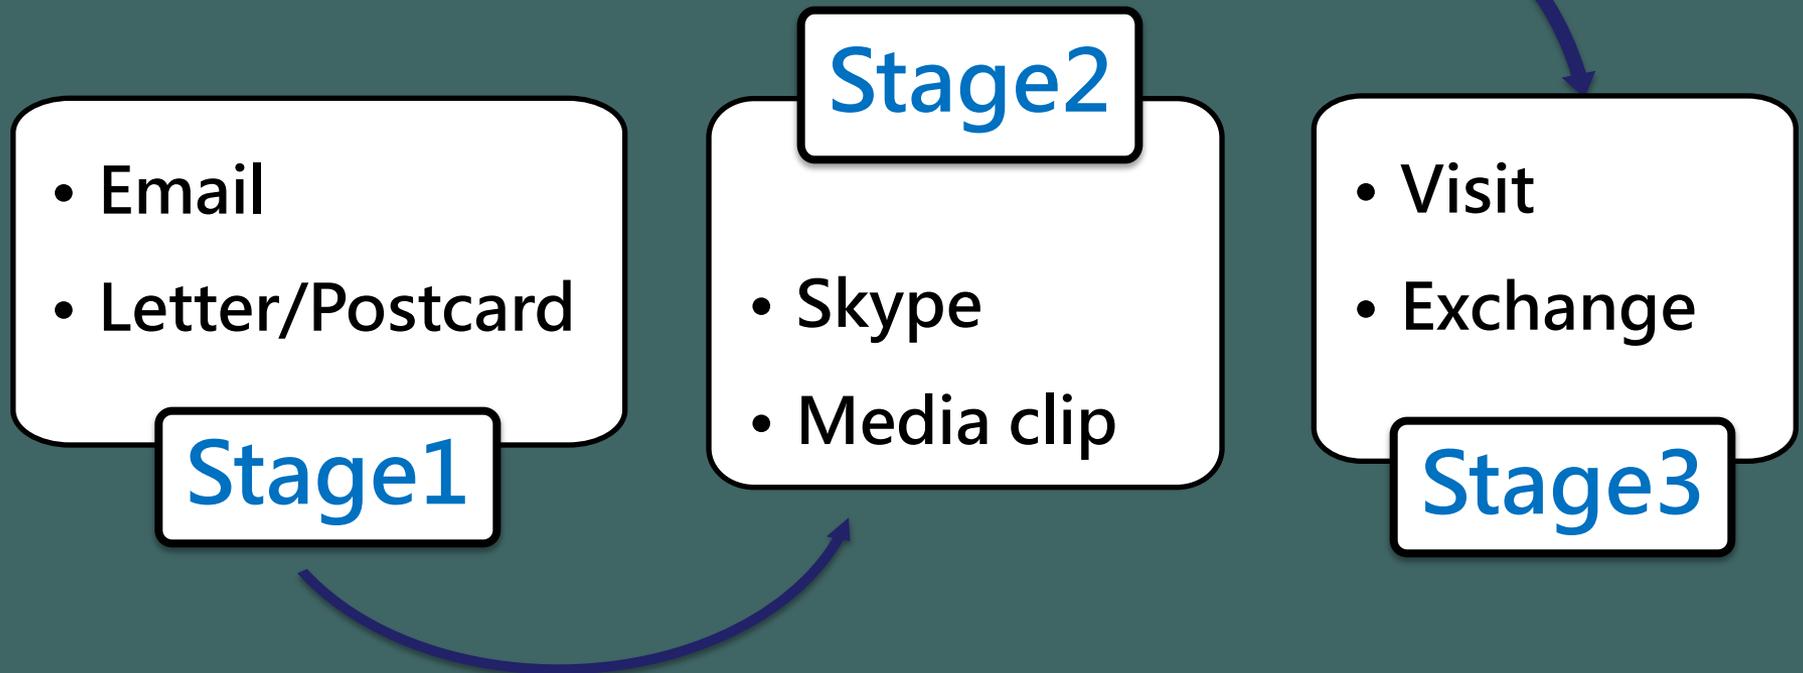

Thanks Class 606. You are very artistic.

I'm going to introduce myself by the following short text.

Hello, it's nice to meet you! My name is 秦茂杰 but you can call me Lockie. I'm a twelve-year-old student from Tai Yu Kuo Junior High School. I love playing basketball, do you? My favorite subject is Mathematics and English. I like math so much since I like to do math. No matter how difficult the math is, I will still love math in my life. I want to make foreign friends, therefore I have to learn English, and it makes me love English. Finally, I hope you like this PPT of my introduction.

My letter

Hello! My name is Lorin. I'm 13 years old and live in Hamburg. On the map Hamburg is small, but actually it isn't. Hamburg is a harbour town. There are so many sights, for example: Lakes, churches, airport, Museums and cool locations. These are so many attractions. I go to the sea. I go to a christian-private school. My class is small, we are 18 pupils in the class. The pupils are so friendly and nice. The teachers, too. I love to talk to them. I have to drive with the train and the bus, it is a long way: I need 1 hour to get to my school. At our school we have got: small shop, a computer room and an art room. Every year we have a sport festival, we collect money and donate it. That is my school, I hope you have beautiful notions.
