## Introduction

### Houtong Cat Village

Come to this coal town in the mountains and experience the daily life of the old miners from the past.

Houtong Cat Village is a famous area where you can see many cats and the rich layers of coalfields. The area attracted many people to come and mine the black gold, which made it into a very important town for the Taiwan coal mining industry in the past. Even today, it still retains many rich mining relics, such as mine craters, trolleys, coal

transportation bridges, miner's dormitories, Ruisan Mining Industry Company and more. You can even take a trolley through the coal tunnel to feel the hardship miners faced. You will never forget this unique experience.

### Shifen Waterfall

Visit Taiwan's version of Niagara Falls for its spectacular scenery and marvelous waterfall.

The Shifen Waterfall Park, which is adjacent to the Shifen Old Street, is located on the mainstream of the Keelung River. Due to the river's erosion and faults in the terrain, strange rocks have formed along

with many waterfalls and geological wonders. Shifen Waterfall is the most famous among them. You can also visit other astounding geological phenomena like potholes and the Yanjingdong (Eyeglass Cave) Waterfall by walking along the Siguangtan Bridge from the Shifen Visitor Center.

## **Meet the Rainbow Pool**

Shifen Waterfall is a ledge waterfall. The rock formations on both sides of the waterfall go against the flow of the water, which is a geological feature called an anticline structure. It is dubbed Taiwan's Niagara Falls because the panorama in this area is similar to that of Niagara Falls in North America. The majestic river splashes as it rushes into the extremely deep pool below the waterfall. As the sun shines through the mist, a rainbow can be seen hanging over the waterfall and pool, earning it the name "Rainbow Pool".

## **Admire the Wonders of the Waterfall from Various Perspectives**

There are several waterfall viewing platforms near the Shifen Waterfall. Visitors can see the wonders of the waterfall from many different angles. You can walk along the trail and see the emerald waters at the top of the waterfall to feel the grandness of the rushing river, or take in the panoramic view of the waterfall from the bottom, which is the No. 1 spot for many visitors to see the waterfall and take photos.

## **Shifen Old Street**

The main feature here is the intersection of the old street being built to connect it with the railways. One can experience interesting “passing of the trains doorways” and the fun of shopping in the shops beside the railway tracks. It is also a well-known site where many

Taiwanese singers make their music videos. One could stroll past the eateries or buy a “Shifen(very) happy” postcard and send to yourself in the future. If interested, you could also purchase a sky lantern and write down wishes to bless yourself, friends, and families. The friendly shop owners will not only offer advice but also instruct you how to take nice photos with the sky lanterns!

Tourists must follow traffic signs and not randomly cross the railroad tracks to avoid

danger! The sky lantern shops here are in business weekdays and holidays. Write down your wishes on the sky lanterns and make your dreams come true!

### **Sky Lantern**

The Pingxi Sky Lantern Festival in New Taipei City has been held since 1999, through joint public and private efforts. The sky lanterns have attracted positive global recognition for Taiwan. The festival has been highlighted by the international media, such as Fodor's, National Geographic and

The Huffington Post. In 2018, it was voted "the most recommended cultural activity for international travelers" by TripAdvisor, the world's largest travel website. It was also recommended by Reader's Digest as "one of the 40 experiences to be completed before the age of 40". The Sky Lantern Festival is increasing the international visibility of the Pingxi area, and bringing Pingxi to the world!

The Pingxi Lantern Festival has become an important highlight for Taiwan on the international stage. Local and foreign visitors can experience the unique cultural activity of lantern launching all year long. People can write their wishes on the lanterns, and then launch them into the sky. These activities combine a variety of resources and attractions, helping tourists from around the world gain a deeper understanding of Taiwan's beauty and culture. It also provides important support for the local economy.
